

This comment is in reference to LPFM stations taking precedents over FM translator services. My family and I listen to K-LOVE radio on an FM translator service, and it is by far the most positive media outlet that exists for my family. It has helped to shape and change the lives of me and my family, and there is no other station like it. We are monthly financial supporters of K-LOVE due to the THOUSANDS of lives it has changed. Please do not deprive my family and others of this extremely rare and encouraging media outlet.

Thank you for the opportunity to let my opinion be heard,

Rick Fasino
